

## **CHAIR & TABLE SOLUTIONS**

**for special events, rentals, catering  
hotels, restaurants & schools**

**We're not just making chairs  
we set new standards for the industry  
... and keep walking you into the future**

## foldin-**OLOGY** it is all about technology and formulations

**At Drake we use the most sophisticated technology  
and the best formulations for the applications**

### co-injection

Material: composite multi-layer techno-polymer.

On folding chairs like our **Ispira**, **Structure**, and our **High Back** models, we use "co-injection".

This technology allows the simultaneous use of a solid and cosmetic skin with a structured foamed rigid core, producing a solid shape. These chairs feel more rigid and have outstanding performances in durability, with long lasting life, and extreme ease of maintenance.

### co-injection & gas

Material: composite multi-layer techno-polymer with gas assist.

On our **CHIP** folding chairs models, in their different material formulations, we use the same "co-injection" technology with gas assist, to obtain a cosmetic skin with foamed rigid tubular core and hollow shape.

These chairs have outstanding performances in durability, with long lasting life, extreme ease of maintenance and feel more flexible, being close to unbrokeable even with harsh handling.

### SMART DESIGN

All our folding chairs take advantage of our patents and design. The **LOAD** rests on the bars supporting the seat, **NOT** on the screws as on similar chairs. All of our folding chairs must comply with a 500lb. of static vertical weight standard. Static vertical weight testing **FEDERAL SPECIFICATION AA-C-291F**

**Structure  
co-injection**

**Chip  
co-injection & gas**

### CHIP-R recycled

This version is **army tough**. Due to the fact that we cannot contrast colors from previous applications, the colors in recycled chairs are rich with shades resembling the natural variety that can be found in wood materials.

Material: CHIP-R chairs are manufactured with post industrial recycled RESIN plus GAS system. Resin is treated and FIBERGLASS ADDED for maximum resistance. This model is intended for environmentally conscious customers only.

Available in **gray** and **taupe**.

**RECOMMENDED for Government Agencies, PARKS, barns, farms and all other settings that are rustic in nature, due to their rugged "aged wood look"**

**WEIGHT:** 10 lbs

#### DIMENSIONS:

Seat: 15 x 16 x 17 h [in.]  
 Folded: 17 3/8 x 35 x 2 1/3 [in.]  
 Stack of 25: 17 3/8 x 35 x 58 1/2 h [in.]  
 Stack of 30: 17 3/8 x 35 x 70 h [in.]  
 Stack of 50: 17 3/8 x 35 x 117 h [in.]

Stack of 30:	17 <sup>3</sup> / <sub>8</sub> x 35 x 70 h [in.]
Stack of 50:	17 <sup>3</sup> / <sub>8</sub> x 35 x 117 h [in.]

### \*\*\* Structure TB133

\*\*\*special formulation upon request

For STRUCTURE TB133 the materials of the chair itself have been upgraded to:

- Outer Material: PP Fire rated
- PAD/plastic seat board: PP Fire rated
- PAD/Seat Foam: PU Fire Resist. Class 1/M
- PAD/Vinyl Cover: 100% PVFP-PVC Fire Resist. Class M2

Exposed to an open flame, the heat release rate is much less than 80 kW, with a total heat release of much less than 25 MJ in the first 10 minutes of the test.

Available in "**white**" with white vinyl seat.

# Ispra

by Centro Erre

**folding stacking**  
and **interlocking** chair

- **Italian Design**
- **Comfortable**
- **Strong and Durable**
- **Easy to clean,**  
**never needs painting**
- **Easily stackable vertically**  
**as well as horizontally**

**Made  
in  
Italy**

## Ispra

Ispra is the perfect OUTDOOR folding chair. It folds perfectly flat to 2 3/4". Guaranteed resistant to all weather conditions and UV rays, it is easily cleaned using water and a neutral liquid detergent. Sold in stacks of 25.

Linking armrest available as an accessory for Ispra chairs.

**MATERIAL:** composite multi-layer techno-polymer, stainless steel hardware.

Ispra meets and exceeds the standards set forth in ISO 7173, ANSI/BIFMA X5.1-1993 and ANSI/BIFMA X5.4-1997

Available in **white, green.**

**WEIGHT:** 11 lbs

### **DIMENSIONS:**

Seat: 15 1/2 x 15 1/2 x 18 h [in.]

Folded: 35 x 18 x 2 3/4 [in.]

Stack of 25: 18 x 35 x 71 h [in.]

Each chair has 4 locking buttons for easy stacking.

### **Easy storage and handling**

We ship 25 Ispra chairs on a resin base which can be easily handled with a handtruck or a palletjack. Four legs can be attached to the base for convenient palletizing. Four casters may be used to convert the resin base into an easy move around Ispra dolly.

### **Ispra linking armrest (optional)**

One or more chairs can be aligned and linked with our linking armrest. Snap in - snap out no tools required.

## High Back Chairs **Chateau** by drake

**folding stacking**

### WHY "HIGH BACK CHAIRS"?

These chairs will better dominate the table set up due to the 41.5" long design, standing out and looking fabulous.

Whether used with additional decorations or simply bare, they add sophistication to the table with the ease of handling of a folding chair.

Furthermore these chairs provide an amazing back support during sitting giving extreme comfort, unparalleled by regular folding chairs.

## Chateau

Chateau chairs by Drake, will better dominate the table set up due to the 41" tall back design. With their high decorative shape towering the tables and their classical rich lines, will stand out and look fabulous whatever the setting. Used with additional decorations or simply bare, the Chateau will bring high class event sophistication with the ease of handling of a folding chair. Chateau chairs are folding, stacking (horizontally and vertically), and come equipped with an interlocking feature that makes moving and storing them quite simple. They are strong, durable, weatherproof, UV protected, don't need painting and require very little maintenance.

**MATERIAL:** composite multi-layer techno-polymer, stainless steel hardware. 1/4" snap in seat is a resin board, CAL 117 Foam and PVC cover.

Available in "**super white**", **black**, **redwood**, **silver**, and **gold**. Standard vinyl seat is white or black.

**WEIGHT:** 10 lbs

### DIMENSIONS:

Seat:	15 x 16 x 17 h [in.]
Folded:	17 3/8 x 41 1/4 x 2 1/3 [in.]
Stack of 25:	17 3/8 x 41 1/4 x 58 1/2 h [in.]
Stack of 30:	17 3/8 x 41 1/4 x 70 h [in.]
Stack of 50:	17 3/8 x 41 1/4 x 117 h [in.]

### link spacer (optional)

When linking chairs together is mandatory for public seating, our solution is excellent:

- snap on, NO TOOLS required
- leaves 3" between linked chairs
- placeholder can be used to customize seating

## co-injection

we use a sophisticated "co- injection" technology, a simultaneous use of a solid and cosmetic skin with a structured foamed rigid core, producing a solid shape. These chairs have outstanding performances in durability, with long lasting life, and extreme ease of maintenance.

**Material:** composite multi-layer techno-polymer fiberglass reinforced, zinc hardware.

- extra strong
- extra light weight
- extra UV resistant
- interlocking
- easy handling
- easy maintenance

**Made  
in  
Italy**

**not wood... better than wood!!!**

## Chiavari (aka Chiavarina) stacking chair

Drake Chiavari stacking chairs have been re-engineered from the ground-up. The NEW MIX of techno-polymers they are made of, makes them exceptionally **strong**, sturdy, **lightweight**, **easy to clean**, maintain and transport. Every detail is perfectly defined with strong round bars even more appealing than the wood ones.

Chiavari by Drake are **stacking and locking with a "click"** to ease transportation.

**flexibility by Design**, the forgiving nature of the back of the chair gives it a comfort level unparalleled by wood at the same time the flexing back of the chair prevents the front legs from going up, henceforth people won't "rock" the chairs as is so often a cause of injury and breakage with other chairs.

**indoor/outdoor**, our Chiavari are weatherproof, UV protected, don't need painting. They can be accessorized with different cushions and vinyl pads and can be safely used OUTDOORS with a set of LAWN SHOES that prevents them from sinking into the grass or sand.

**stacking and locking with a "click"**

**WEIGHT:** 10 lbs

### DIMENSIONS:

Seat:	16 x 16 x 18 h [in.]
Stack of 7:	17 x 26 x 88 h [in.]
Stack of 8:	17 x 27 x 96 h [in.]
Stack of 10:	17 x 28 x 113 h [in.]

Available in **white**, **black**, **silver** and **gold**.

**Chiavari Chairs  
Accessories**

**Shoes**  
by drake

**the perfect look  
comes from  
perfect details**

bringing seating outdoors  
for breathtaking & unforgettable events

## Chiavari shoes: no more sinking

Break the rules and move seating to locations that have always been traditionally difficult for chairs. Our chair shoes increase support for the chair legs on difficult ground, greatly reducing the sinking of the legs. Whether on the beach, on a green at your favorite golf club, or simply on a backyard lawn, our support system lets you bring our classy Chiavari chairs and your unforgettable events to a whole new level **outdoors**. Our Chiavari shoes are easy to deploy. Snap them onto the chair legs, no tools required, snap them off when finished.

Our Chiavari shoes do not interfere with the chair's ability to stack. Chairs can be collected, stacked, stored, moved and re-deployed without removing the shoes.

Small holes in the supporting plate area, allow the lawn to breathe, greatly minimizing any damage to it even with extended use of the chair on the grass.

## Chiavari shoes: secure chairs to a pallet

Our Chiavari shoes can be used to secure our Chiavari chairs to a wood pallet, for easier and secure transportation.

When one set of Chiavari shoes is screwed into a wood pallet, it secures the first chair of the stack to the pallet, preventing the chairs from sliding, keeping them firmly in place on the pallet.

Use of additional strapping (not included) is suggested before moving a stack of chairs.

### 1" RIGID PADS

avoiding using velcro to secure  
your seat...

is now an option!

**the perfect look  
comes from  
perfect details**

for breathtaking & unforgettable events

## engage rigid seat pads

Good look, very low maintenance, tailored resin rigid base, with soft vinyl leather-textured cover and a 1" urethane foam. Our new upholstered Chiavari pads give the option of avoiding using velcro bullets:

- no modification to the chair necessary
- the pad engages with the contour of the chair creating **a lock** between the seat and the rear legs requiring it to be lifted vertically and parallel to the floor to disengage.
- the chairs can be used with or without the pads without worrying of the velcro adhesive bullets on the seat.
- available in **white** or **black** vinyl as a standard. Covers can be customized with a rainbow of colors/materials, see below.

## special vinyl cover

Our Chiavari rigid seat pads could be finished by cotton supported special vinyls. Our vinyls are fire rated, with a very high abrasion resistance (2000 cycles with a 20N load ref. UNI 4818-15). They are very easy to clean, with water and a mild soap.

material: PVC 87.5% + cotton 12.5%  
weight: 640 g/m2 +/- 50  
flammability standards:  
1 IM UNI9175 / USA MVSS 302

## special fabric cover

Custom colors are available as fabric applied on our Chiavari rigid seat pads. Modacrylic is fire rated, with a very high abrasion resistance (55,000 martindale cycles), UV resistance (EN ISO 105-B02 @ 4/5), rubbing resistance (EN ISO 105-X12, wet @ 4/5, dry @ 4/5)

material: 100 Modacrylic  
weight: 295 g/m2 +/- 15  
flammability standards:  
1 IM UNI9175 / EN 1021-1:2006 & EN1021-2:2006.

## Chair Cart

Perfect solution for Hotels and Banquet Halls where moving chairs through elevators and narrow corridors might be a challenge and the use of efficient but bulky Chair Trucks is difficult. That is why we came up with a solution, adapting our famous custom made HDPE thermoformed chair pallet to a sturdy welded steel frame with an easy to pull handlebar.

- Max Suggested load: 30 chairs
- 2 regular and 2 swivel 4" casters (Polyurethane on Polyolefin)
- Net Weight: 30 lbs.

## Chair Truck

### SELF BALANCING... NO EFFORT!!!

Strong sturdy, a major help in handling chairs. Every task involving moving chairs will be easier. Truck width: 28"

- 4 pneumatic wheels/10" closed cell foam tires, ball bearing hubs
- powder coated steel frame
- expanded metal backguard & 54" aluminum fenders to protect load from rubbing on tires
- 34" long forks, 7/8" diameter, 14 3/4" apart, designed for heavy duty hauling
- MAX LOAD: 750 lbs.

## Chair Handtruck

Our single axle chair handtruck is a good and cheaper alternative to a chair truck.

- Specifications:
- 2 pneumatic wheels/10"
  - folding forks

## Chiavari Stackers & Movers

Very compact solution expressly developed for our Chiavari chairs. This structure fits 4 stacks of 5 Chiavari ea. (20 chairs) in a very small footprint that can be developed vertically, saving huge amounts of money for storage. Furthermore there is no need to repack the chairs, they can be shipped as is, just unstack the **20 chair shipping unit** and load everything onto the truck.

*dimensions:* 1000 x 1200 x 1950h [mm]

40 x 47 x 77h [inches]

*weight capacity:* 250 kg | 550 lbs.

**up to 40 chiavari chairs:**  
**storage only**

**up to 24 Chiavari chairs:**  
**storage & shipping**

that allows to go from warehouse to truck, and back to warehouse in no time, with minimum labor cost.

**from warehouse  
to truck...  
and back to  
warehouse**

- easy maintenance

#### **Applications:**

#### **RESTAURANTS - BANQUET HALLS**

Indoor/Outdoor Use - Temporary or permanent installations.

\*\*\* technopolymer table top is made in the USA

\*\*\* folding & nesting legs are made in Italy

*our restaurant tables with folding and nesting legs can be stored in very small spaces and tacked away with minimum effort*

*easy cleaning & maintenance for permanent or temporary installations*

**30"x32"  
modular linking**

**Material**  
The table top is made of a fiberglass reinforced technopolymer. The table leg is made of powder coated steel with adjustable feet. Available in white or anthracite. A "marine" version is available in stainless steel.

**connectivity** when regular monoleg tables are joined together to accomodate large parties, the alignment is very often impossible, table tops have steps and/or slightly different inclinations resulting in visually unpleasant and quite uncomfortable junctions. With *our tongue and groove system*, tables can be added in any direction and they remain seamlessly joined.

# DSN tables by drake

Drake is proud to introduce

**"Dolce Stil Novo"**

the most revolutionary vision of an easy to handle, store and deploy portable banquet table system, aimed to replace folding tables of different lengths, adding bar tables & stools to the mix as well.

The world of banquet tables will never be the same...

Made  
in  
USA

# **“Dolce Stil Novo”** **modular *linking*** **banquet table systems** *...life is sweet!*

**Dolce Stil Novo** (Italian for “*sweet new style*”) is the name given to the most important literary movement of the 13th century in Italy. It marked a true revolution in dignifying the use of Tuscan vernacular in exquisite literary works making them accessible to the masses.

Before the *Dolce Stil Novo*, all literature and higher education was in Latin. Latin, an exclusive privilege of the upper class, was no longer understood by ordinary people.

With the same revolutionary spirit, we introduce the:

**“Dolce Stil Novo” MODULAR LINKING table system**  
which will make the storage, transportation and set up of banquet tables super easy, accessible and manageable for all. With such an advanced modularity, inventory morphs and adapts becoming what is needed, whenever is needed.

**NO MORE** inventories of bulky multiple sized & heavy to move tables.  
With our system... **one size fits all...**
